Revenues Returned to Oregon, Washington Counties

Thirty-one counties in Oregon and 27 counties in Washington received \$124.5 million as their share of revenues from the sale and use of national forest products and services in fiscal year 1981.

The Oregon amount totals \$95,112,708.07, and the Washington amount totals \$29,396,778.66, according to Regional Forester R.E. Worthington, USDA Forest Service. Last year's totals were \$98,888,365.36 and \$32,708,540.02. The counties received approximately three-fourths of the 1981 amounts at the end of the fiscal year, and the remainder was disbursed Friday.

The money returned to the states, and in turn the counties, represents 25 percent of the money collected by the Forest Service from the sale of timber, and from grazing, recreation, minerals, and other land-use charges where national forests are located. The money is to be used for public schools and roads.

Since passage of the National Forest Management Act of 1976, the base on which state shares are now figured includes credits made to timber purchasers for building roads, and funds used by the Forest Service to improve timber sale areas. Before passage of the Act, these were not included in the base on which the 25 percent was figured, Worthington said.

Oregon leads the nation in its share of \$230,051,337.75 distributed to 40 states and Puerto Rico; Washington ranked third, with California second.
